Forum - PIUG Discussion

Added by [Admin - Tom Wolff](#), last edited by [Admin - Tom Wolff](#) on Mar 15, 2009 19:00

Labels: [EDIT](#) [forum](#)

This is the main PIUG Discussion Forum for matters of general interest to the patent information users community. News, questions and concerns about new developments in patent information from patent information users, patent offices, including the USPTO, the EPO and others, and patent information vendors are encouraged. Indexing and searching techniques, new databases and systems (online or in-house), and developments in existing databases are suitable as topics for discussion. Please see [Guidelines for Commercial Participation](#) for further information.

Please contribute topics on [Job Postings](#), [Situations Wanted](#), [questions to the PIUG Leadership](#), [questions to the Electronic Communications Committee](#), and [Wiki Administration issues](#) to the forums specifically established for those topics.

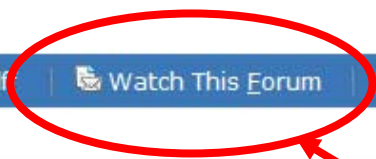

Setup full-content email notification of all new topics and replies within this discussion forum by clicking on the "Watch This Forum" top menubar item or the Page Family Watch  in the upper-right corner of the content area. You must login first before you will see these useful menu items or icons. However, they will not show up if you are already watching the whole space. Also "Subscribe to Daily Updates" in your "Settings...Manage my Email Notifications" menu item. More information is available on the [Watching Spaces, Forums, and Pages - Quick Reference Guide](#) page. **Avoid junk mail filter problems for wiki email.** Make sure your personal and corporate junk mail filters are set to receive all email from piugwikimaster@gmail.com, the email address of record for the PIUG wiki.

Notice on use of PIUG Name and Logo: No one may use the PIUG name or logo for any promotional or commercial purpose or any other purpose without the prior written consent of the PIUG Board of Directors.
